THANKS to :

Bob Lynch and his colleagues from Macclesfield H&AC for putting on the second league event in what became increasingly difficult weather conditions for visibility.

My thanks to George Davenport of Newcastle (Staffs) for acting as timekeeper's recorder, Hamish's team of ladies for number recording and to Sue Egerton for sorting out the team sheets in to finishing order.

If there are any mistakes please let me know BEFORE the next event - John Driscoll (Tel : 0151 339 5341)

FINAL LEAGUE EVENT : 18 March at Woodbank Park, Stockport (first race 1pm).

CORRECTIONS to first Round results :

In the senior/veteran mens results although Dave Walton of Wallasey was indicated as a vet he was not added into the total of vets. Also, we guessed at Steve Dobson (63) and Richard Mitchell (71) incorrectly - reverse their positions and this has a knock-on effect on veteran positions - I will leave you to work it out!

The winner of the Under 15 Boys race was Danny Barker and not as indicated.

Senior / Veteran Men team scoring.

I received some comments from one club (Helsby) that they felt the "old scoring" system would have been better for their senior team. The old system requested clubs to indicate which vets, if any, they wished to count in the senior team. These vets would then not be eligible for the veteran team. However, only a few clubs bothered to make this declaration and those doing the results then had to decide what to do with those clubs who did not declare. This season I was asked by the League Officials to be consistent in the approach to scoring, which is what I have done by stating that the first 4 vets to finish make up the vets team, with any additional vets being used for the senior team if required.

To see if the "old system" makes any difference, I looked at the Macclesfield results and rescored taking the first 4 finishers irrespective of age as the senior team, then any remaining vets make up the vets team - except for those clubs who only had vets running.

In Helsby's case they would move up to 3rd senior team but drop back to 3rd vets team; the net effect on league points is a reduction of 1. (Vale Royal have no vets left to make a vets team score, hence one fewer vets team finishes). The club which would have gained the most is Spectrum (+3), while Newcastle would lose 5 points.

I suspect that no scoring method is going to favour everybody - I will attempt to look at what differences there would be when different scoring approaches are used after the final event. No doubt the debate will continue.

AWARDS : these will be presented as soon as possible after each race at Stockport. *Please get your team envelopes in rapidly to help.*

Awards will be made to the first 3 individuals in the age groups given on the attached sheet which shows positions after 2 Rounds. Qualifiers for an individual award must have taken part in all 3 Rounds.

Awards will also be made to the first 3 teams in the age groups shown in the accompanying table which shows positions after 2 Rounds. If 2 (or more) clubs have the same points total, then they will be differentiated by the total of points scored in each round.

Looking at the tables suggests that with Senior Men, Vet Men and particularly Ladies a significant number of Clubs are still in the running for second and third place medals.

Perpetual trophies will be awarded to the overall mens and ladies club winners for combined team totals for Under 13 upwards. Again latest positions are given in a Table.
